

# Industrial Hand Tools. If They're *Martin*, They're American-made.

The mark of *Martin* identifies a complete line of industrial hand tools designed and built with long-lasting quality. You can't have a quality hand tool without quality steel.

And sometimes you can't see the difference. Today many hand tools look alike. Smart purchasers ask about the materials that are used to produce them. The difference is in *Martin*, where tools are made from the highest quality American steel available.

American-made products for American industry. That's been our business philosophy for over forty years. Combine that with the sixteen service centers to serve you coast-to-coast, and you can see why we're now making the best hand tools in the industry. Why not find out more? Call or write today.

Sold by The World's Greatest Sales People.
